Joel,

Nailed it. It is in the common, trucks start on page 821 of this pdf.

I just did a quick scan, but it doesn't seem like they have the typical table providing ABC's and RLHP (18.5) in this case for their various configurations (tires, AWD, etc.) Do they have this in their COMMON instead?

FCA usually has this in their test group Part 1 app, rather than the COMMON.

Joel,

They have three test groups with a 3.5L. All the FOI applications are here, that is all I would have.

Hi Dan –
See below. If this is at your fingertips, it would be appreciated.

Subject: FOI Act Info

Joel, FCA is interested in obtaining competitor information that we believe should be available through the FOI act, however we are not able to locate it on the EPA website. Can you please help us locate the following information:

The requested information is dynamometer coefficients for the 2018 Ford Explorer fuel economy configuration.

2018 Ford Explorer

AWD

Fuel economy configuration

3.5L Engine

Target RLHP believed to be = 18.5hp
